

RJ11/12 Snap In Module

RJ11/12 Snap In Module (KJHb)

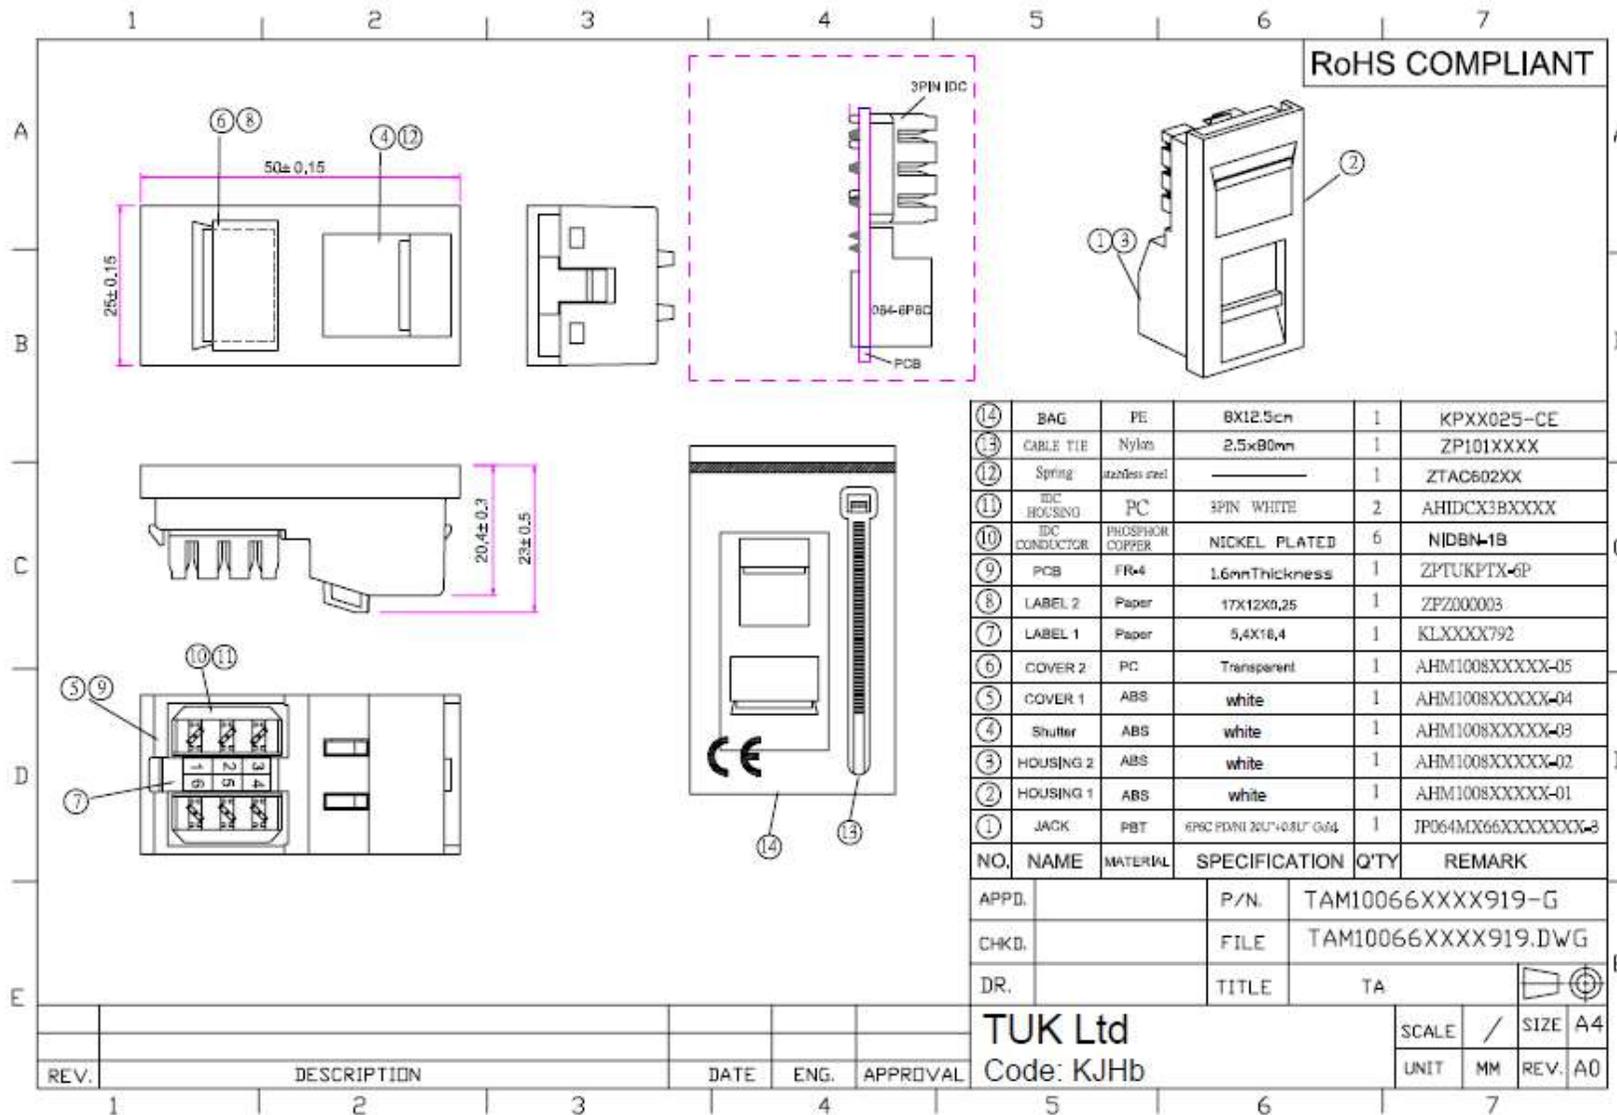

Our RJ12 snap in module is designed for installation into our range of "eurostyle" faceplates, and enables voice sockets to be integrated into a data installation.

Features

- LSA+ type IDC
- Low profile design
- Shutter to protect from dust ingress
- Integral cable tie point, does not obstruct cable termination
- Compatible with most 'Euro-style' 86 x 86 faceplates
- 'Slip-in' label facility for port identification

Specifications

- Dimensions: 50x25x23.5mm
- Colour: bright white
- Materials: ABS
