More Information:

TUK's D UNIVERSAL series of connectors offers a wide variety of audio, video and data connectors all vailable for use in standard 'D Series' XLR type cut-outs. Designed for rear mounting, our connectors have a pleasing flush appearance when mounted in suitable panels. All items in the range can be mounted quickly without need for any securing nuts, as our PATENTED 26 x 31mm mounting plates (made from black polycarbonate or nickel plated PC/ABS according to connector type) are prethreaded for M3 screws. All connectors are made to relevant standards. Category 6 and 6A connectors are produced, for example, to FCC68 and to TIA/EIA 568B and have an insertion life of >750 mating cycles. All products are CE compliant (i.e including ROHS and REACH) TUK seeks continuously to expand the range to ensure comprehensive coverage of established and new voice, A/V and data cabling technologies.
