More Information:

TUK’s 6C range is designed for faceplates, GOP boxes and floor plates fitting 25 x 38mm connectors.

The angled faceplate adaptor is made of robust polycarbonate in the UK. The polycarbonate allows a high-quality finish for prestige installations.

All connectors are made to relevant standards. Category 6 and 6A connectors are made, for example, to FCC68 and to TIA/EIA 568B and have an insertion life of >750 mating cycles. All products are CE compliant (i.e including ROHS and REACH).
