More Information:

TUK's Low Profile Panel Mount Range offers a wide variety of audio, video and data connectors which can easily be mounted into panels of virtually any thickness.

Each connector is supplied as a kit. Kit includes coupler/connector, panel mount adaptor, and 2 pairs of black steel flat head screws (2 x M3s for European installations, 2 x 4:40s for US installations).

The Low Profile Black adaptor KAPMBfnl is durable and ensures easy mounting (into standard cut-out) – can be purchased on its own in packs of 20 pcs.

All connectors are made to relevant standards. Category 6 and 6A connectors are produced, for example, to FCC68 and to TIA/EIA 568B and have an insertion life of > 750 mating cycles. All products are CE compliant (i.e including ROHS and REACH)
