SUGGESTED CUT OUT:
FLUSH MOUNT APPLICATION
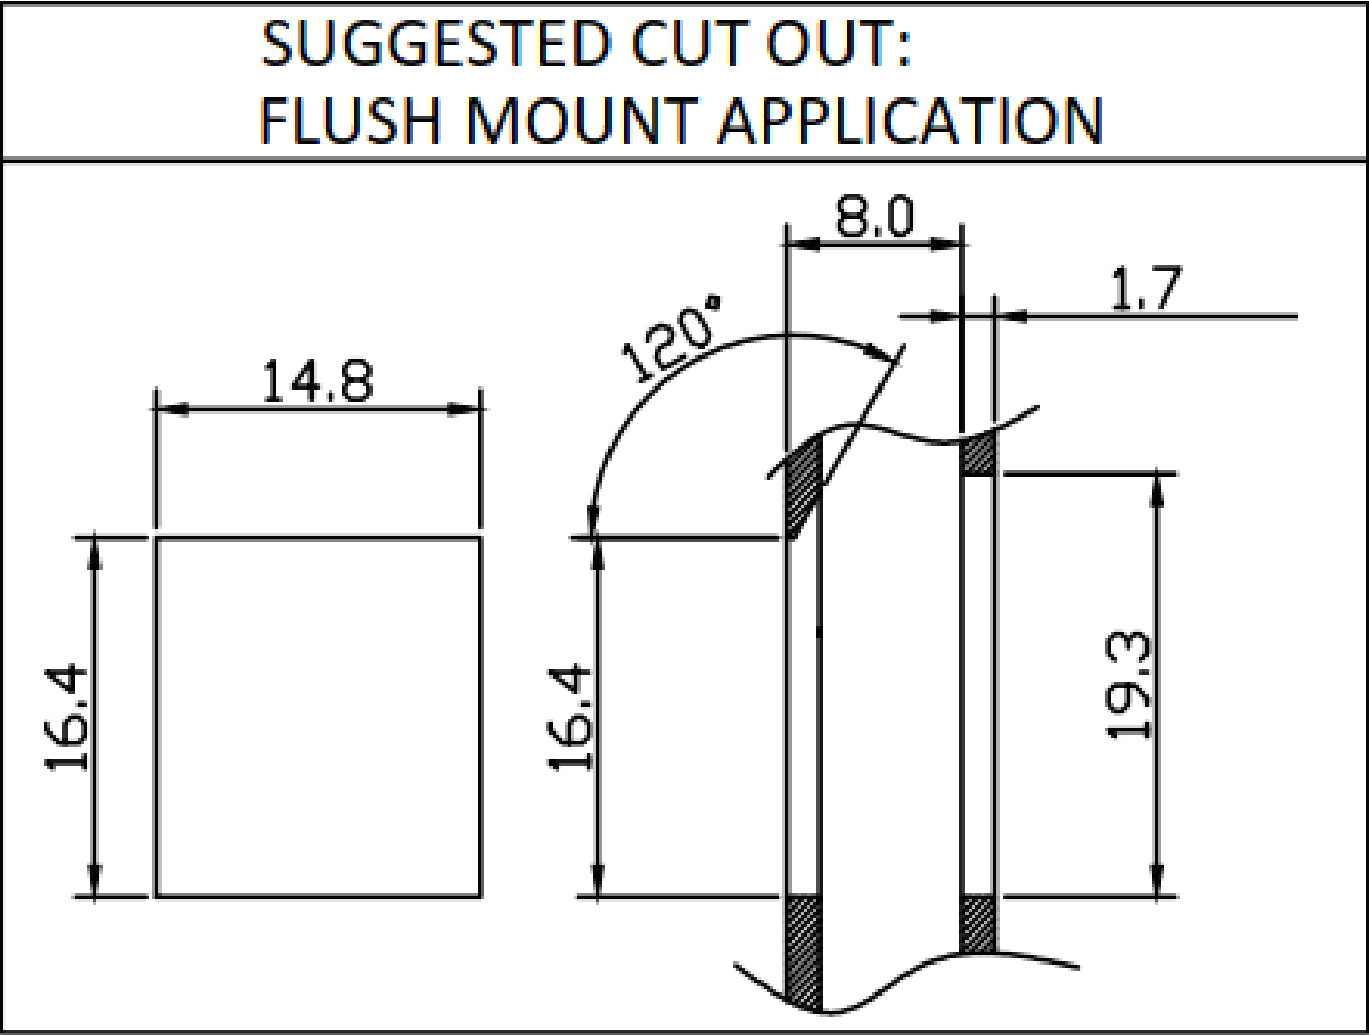

More Information:

TUK's Keystone Connector Range offers a wide variety of audio, video and data couplers which can easily be mounted into panels, housings and our range of adaptors.

Our keystones are designed for a standard cut-out measuring 14.8mm wide x 19.3mm high in a panel approximately 1.7mm thick. For aesthetic reasons, we recommend a twin walled panel, or an adaptor, like our Kapma.

All connectors are made to relevant standards. Category 6 and 6A couplers are made, for example, to FCC68 and to TIA/EIA 568B and have an insertion life of >750 mating cycles. All products are CE compliant (i.e including ROHS and REACH)
